About This Game

You are one of the multitudes of incarnations of the great Horus, and side by side with the pharaohs, you are fighting against the mighty Seth, who unleashes numerous disasters upon the lands of Ancient Egypt. Win wars and overcome crises, discover new technologies, worship your gods and conquer neighboring tribes! Are you wise enough to help the ancient kings to unify Lower and Upper Egypt, build a stable economy and to erect the Great Pyramids?

Based on real history

You will find yourself in Memphis, 3500-2140 years B.C., the time of the first six dynasties of pharaohs. You will unify the country and create a prosperous kingdom, which later will have to face the havoc of the First Intermediate Period.

Construction of the Great Pyramids

You will lead the construction of pyramids, choose their design and materials. This process requires tremendous investments, but it is the only way to keep peace and order in the country.

Ancient society simulator

You will not only deal with the problems of farmers and craftsmen but also make important political decisions, which will define the future of the kingdom. Numerous challenges and events of different scale await you.

Ancient maps

Discover the world of the Old Kingdom: exploit new lands, send expeditions to different places, and meet different cultures. Use every opportunity to learn about your surroundings and to expand Egypt's borders.

Differences from Predynastic Egypt

- More diversity in the game, varied tasks in the regions, different tactics for playthroughs and unique bonuses from patron gods.
- Egypt: Old Kingdom is longer.
- New technologies: 3D engine and skeletal animation.

Deceivingly Difficult as it progresses... Really well made simple game. If you like puzzle games which make you think this one wont dissapoint. Some levels will take a century if you just play them mindlessly thanks to the level design thus its best if you play it like it should be played... with patience and brains. some kind of anime?

shooting game?

world war 1 inspired i think?

i couldn't get past the firs tlevel after two tries and gave up. ♥♥♥♥ anime. I love the concept of a old school rpg where the random battles are fought by me in real time. It's EA at the moment so there is only one map and three bosses (that I am aware). There are three different maps for survival mode, which is a wave shooter you can use to level your character. Can't wait for story mode!. point and click.great game adventure. I thought bing bong was my favorite in the set, but its definitely now pivot. calming to play but gets really fast and brutal once youre high. This was a lot of fun, well designed. Too short.

This game had high hopes when i bought it in 2015 and it looked very promising then it just stopped no updates or patches it died plain and simple to everyone DO NOT BUY THIS ITS DEAD TO NEVER BE FINISHED AGAIN. i think this could be one of the best manager games going but i think the match engine could be better but i think it is still a good looking game and the price is ok. Went to buy this game and realized i bought it years ago. Wondered why I don't remember. Installed and UPlay popped into my computer like digital cancer. Now I know why I still have not played this game. UPlay doesn't work through Steam. If I buy a game on Steam, I want it to play through Steam. Steam is a stable software platform. UPlay is not. This game does not work on my computer, nor has any game I have to play through Uplay *COUGH* Far Cry anything *COUGH* Splinter Cell anything.... The cutscenes are bad, like Wing Commander 3 bad.. Paranormal Teens, in my opinion is below average when it comes to quality for a visual novel on Steam. That being said its not all bad so I still recommend you give it a try if you are interested.. That's a very good puzzle coop game... I recommended for all who loves puzzle games. It has a bug on the 3th chapter .. A friend who i play with, couldn't see a candle which i could see... Played this game in full 12 player lobbies where we were all on voice comms together. Mini golf with friends, as you'd expect, is a hilarious and great time. The game's price tag (\$6) is a good price, especially when more courses/modes get added. You can also join open lobbies and play golf with strangers on the internet; this is a game that should be played with other people.
